Instructions for Idaho Form 83R

GENERAL INSTRUCTIONS

Use Form 83R to compute the increase in tax and reduction to credit carryover for the recapture of the small employer investment tax credit (ITC).

If you claimed the small employer ITC in an earlier year and fail to meet the tax incentive criteria you certified to on Idaho Form 89SE, you must recapture all the small employer ITC claimed in the earlier years.

You must recompute the credit if you earned it in an earlier year, but disposed of the property before the end of the five-year recapture period. You must also recompute the credit on any property ceasing to qualify as small employer ITC property. Property moved from Idaho ceases to qualify as small employer ITC property and is subject to recapture.

Recapture may be necessary when:

- An S corporation shareholder's interest is reduced by a sale, redemption or other disposition of the shareholder's stock, or by the corporation's issuance of more shares.
- A partner's proportionate interest in the general profits of the partnership (or in a particular item of property) is reduced.
- A trust's, estate's or beneficiary's proportionate interest in the income of the trust or estate is reduced.

S corporations, partnerships, estates and trusts that pass through small employer ITC to the shareholders, partners or beneficiaries must provide schedules detailing the recapture information required to compute the recapture on their income tax returns.

Any resulting tax from recapture of credits claimed in prior years must be added to the tax otherwise determined in the year of recapture. Recapture of credits not claimed in prior years reduces the amount of credit carryover available to the current year.

SPECIFIC INSTRUCTIONS

Instructions are for lines not fully explained on the form.

PART I

Lines A through E. Describe the property for which you must recompute the small employer ITC. Fill in lines 1 through 8 in Parts II and III for each property on which you are recomputing the credit. Use a separate column for each item. Use an additional Form 83R, or other schedule with all the information shown on Form 83R, if you have Idaho small employer ITC recapture on more than five items.

PART II

S corporations, partnerships, estates and trusts that have property subject to recapture must complete lines 1 through 9 to determine the amount of credit recapture. A copy of this form and a schedule detailing each shareholder's, partner's, or beneficiary's pass-through share of the recapture amount must be attached to the business's income tax return and to each Schedule K-1.

Partners, shareholders and beneficiaries will use the information provided by the partnership, S corporation, trust or estate to report their pass-through share of the credit to be recaptured on line 10.

Line 1. Enter the month, day, and year that the property was first available for service.

Line 2. Enter the cost or other basis of the property used to compute the original small employer ITC.

Line 4. Multiply line 2 by line 3 to compute the credit originally earned for each property listed.

Line 5. Enter the month, day, and year the property ceased to qualify as small employer ITC property.

Line 6. Do not enter partial years. If the property was held less than 12 months, enter zero. If you failed to meet the tax incentive criteria, enter zero.

PART III

Line 7. Enter the appropriate recapture percentage from the following table.

If the number of full years on Form 83R, line 6 is...	Then the recapture percentage is...
0	100
1	80
2	60
3	40
4	20
5 or more	0

Line 9. Add all amounts on line 8. If you have used more than one Form 83R or separate sheets to list additional items on which you computed an increase in tax, write to the left of the entry space "Tax from the attached" and the total tax from the separate sheets. Include the amount in the total for line 9.

Line 10. Enter the amount of recapture of small employer ITC that is being passed to you from S corporations, partnerships, estates and trusts. Attach a copy of the schedule provided to you.

If recapture is necessary due to a reduction of a shareholder's proportionate stock interest in an S corporation, reduction in the interest in the general profits of a partnership, or reduction in the proportionate interest in the income of the trust or estate, include that recapture on line 10 as well.

Line 11. Add lines 9 and 10 to determine the amount of credit subject to recapture.

Line 12. If you are a partnership, S corporation, trust or estate, enter the amount of credit recapture that passed through to partners, shareholders, or beneficiaries. Do not include any recapture on this line for partners, shareholders, or beneficiaries for whom you are paying the tax.

Line 13. If you did not use all the credit you originally computed either in the year earned or in a carryover year, you will not have to pay tax from recapture of the amount of the credit you did not use.

Compute the unused portion of the original credit on a separate sheet and enter it on this line. Do not enter more than the tax from recapture on line 11.

Line 15. This is the total increase in tax. Enter it on this line and on Form 44, Part II, line 3. DO NOT use this amount to reduce your current year's small employer ITC from Form 83.
